SPECIFICATIONS

- Material: Double-walled, vacuum insulated, 18/8 stainless steel body & BPA-free lid
- Capacity: 16oz/475ml
- Colours: Wild Plum, Snowflake, Obsidian (Black), Red Rock, Brushed Steel, and Mountain Lake (Blue)

- Flip top lid provides a spill-proof seal.
- After steeping, the plunger is pressed down, forcing tea into the chamber below.
- Fine mesh infuser basket filters tea leaves.

- The tea leaves are pressed into a solid chamber, to prevent over-steeping.
- The 18/8 stainless steel, double-walled body provides great heat retention.

The Infuser Mug Tea Tumbler

The Infuser Mug Tea Tumbler is different from any other infuser on the market, with the ability to brew tea and stop the infusion process without the need to remove the tea from the mug. Once the plunger is pressed all the way down, tea leaves are compressed into a solid infusion-stopping chamber, away from the water. This ensures that your tea is brewed just the way you like it. The Tea Tumbler is made for everyday travel and ergonomically designed to fit comfortably in your hand and car cup holder. Available in five different colours to suit your mood.
