

Welcome to Bruer Spectrum

For coffee lovers who demand quality, the right filter is key. Bruer Spectrum Specialty Paper Filters deliver clean, consistent, flavour-rich results across multiple brew styles.

- Variety of Shapes & Sizes – Compatible with most brewing devices.
- Professional-Grade Design – Created with coffee experts to boost extraction, prevent clogs, and reduce fines.
- Advanced Fibre Layering – Supports smooth, even water flow for balanced extractions.
- No Pre-Wetting Required – Brew right away, no papery taste.
- Business-Ready – Premium packaging and retail-friendly pricing for cafés and shops.
- Whitened using a chlorine-free, bio-enzyme process that leaves no chemical residue or off-flavours.
- Made using FSC® 100% Certified Paper, supporting sustainable and ethical forestry practices.

Why Choose Spectrum?

Spectrum filters offer top-tier performance for both commercial brewers and passionate home users, making them a smart and versatile choice for any coffee product range.

Single Cup Brewing: Bruer Spectrum Cone Paper Filter #1

Best for small pour-over devices or compact brewing systems.

The cone shape promotes efficient water flow, resulting in a clean cup.

Compatible with:

Hario V60 Drippers, Cafec, Origami, Kono and most other cone drippers.

Pour-over for 1-3 Cups: Bruer Spectrum Cone Paper Filter #2

Perfect for medium-sized pour-over devices, such as the Hario V60-02.

This size ensures proper saturation and flow control for a balanced brew.

Compatible with:

Hario V60 Drippers, Cafec, Origami, Kono and most other cone drippers.

Small Flat Bottom Brewers: Bruer Spectrum U-Shape Paper Filter #2

Tailored for smaller, flat-bottom brewers, this filter provides even extraction and minimises the risk of over-extraction in compact setups.

Compatible with:

Moccamaster, Melitta, Bonavita, Clever and most flat-bottom drippers

Batch Brew for Large Groups: Bruer Spectrum U-Shape Paper Filter #4

Ideal for brewing larger batches in flat-bottom brewers or coffee machines designed for bigger capacities.

Compatible with:

Fellow Aiden, Moccamaster, Melitta, Bonavita, Clever and most flat-bottom drippers.

Wave Brewer Specific: Bruer Spectrum Wave Paper Filter #4 8-Cup

Designed exclusively for wave-style brewers, this filter ensures optimal saturation and even particle distribution, preventing flavour loss.

Compatible with:

Fellow Aiden, Breville Precision Brewer and other flat-bottom brewers.

COMPARISON CHART

Filter Name	Shape	Size	Compatible Brewers	Ideal Use
BRUER-CPF1	Cone	#1	Hario V60-01, Cafec Flower Dripper, Origami Dripper, Kono, and most other cone drippers	Single-cup pour-over brewing
