

LOD® BLACK

HIGH PERFORMANCE DESCALING LIQUID SOLUTION

HIGH PERFORMING

A heavy duty descaler with exceptional scale removal capabilities. LOD® Black is specifically formulated to include a blend of acids that tackle the toughest scale build-up within the machine.

DOUBLE ACTION FORMULA

LOD® Black is made up of a unique, double action formula to remove scale formation and increase your machine's maximum performance and output.

COMPATIBLE WITH*

Being a high performing descaler, it has been tried and tested on various surfaces with proven results, including brass and stainless steel, to give you complete peace of mind when using LOD® Black in your space.

RECOMMENDED FOR

Removing hard water scale from metal surfaces in contact with hot water such as espresso machine water tanks, coffee brewing and other hot water equipment.

Cafetto® is certified by independent globally recognised industry bodies

FOR MORE INFO

HOW TO USE

- Ensure the left white cap is tightly sealed and slightly loosen the right white cap. Gently squeeze the bottle until reservoir measures 100mL, remove the left cap and pour from reservoir.
- Add 1 Litre cold water to prepare descaling solution.
- Follow the machine manufacturer's instructions to decalcify, de-lime or descale the machine.
- Always rinse the machine at least twice with fresh water after decalcifying and before re-filling and reusing the machine.
