

NITRO[®] INFUSER

Simply put...The Perfect Nitro Cold Brew

Nitro cold brew has established itself as a mainstream, high-demand menu item for many coffee shops worldwide. Enhanced Beverage Solutions created the Nitro Infuser to allow you to pour the perfect nitro-infused beverage time after time with no effort.

SET THE STANDARD

Using the strategic technology of a four-stage infusion process, the Nitro Infuser will **empower your kegerator** so you can consistently pour the perfect nitro cold brew without the hassle of shaking the keg.

THE PERFECT NITRO COLD BREW

VISUAL PROFILE

- Dense, Thick Head
- Small Micro-Foam
- Beautiful Cascade
- Golden Color

TASTE PROFILE

- Smooth, Creamy Taste
- Slightly Sweeter
- Less Bitter
- Low Acidity

INFUSION ON DEMAND

The Enhanced Beverage Solutions Advantage

- Multiple stages of nitrogen-infusion
- Dual-vortex blending chambers
- Adjustable nitrogen infusion levels
- Impressive speed of pour
- One year parts and labor warranty
- Nitrogen cascades more than 10x longer
- Up to 25% nitrogen saturation
- Eliminates the need to shake the keg
- Improves yield of keg
- Consistent pour from glass to glass

HOW WILL YOU CHOOSE TO INFUSE?

IN-LINE INFUSION

with the Nitro Infuser

The Nitro Infuser quickly installs between keg and tap. Using the latest Nitrogen Control System (NCS), the device empowers your existing keg system to pour the perfect nitro-infused beverage from the start of the keg to its finish.

**Available in both a single and a dual*

INFUSION AT TAP

with the Nitro Tower

The Nitro Tower contains a complete infusion system embedded within the unit. Simply attach the device to the top of your kegerator and you're ready to pour the perfect nitro-infused beverage. If you're looking to empower small spaces, the Nitro Tower also allows you to pour both still and nitro beverages from the same keg.

**Available in both a single and a dual*
