

The Ultimate Machine for Filter Coffee.

The Cafina XT180 GMC from Melitta is the ultimate machine for filter coffee. In the same design as their new generation automatic coffee machines, the XT180 GMC is sleek and functional, taking the manual elements out of brewing delicious filter coffee.

The perfect solution for batch brewing, the Melitta Cafina XT180 GMC can make up to 125 cups of fresh filter coffee per hour. Its design includes two hotplates to keep your brew warm, and one glass server with a capacity of 1.8 litres is included.

Features:

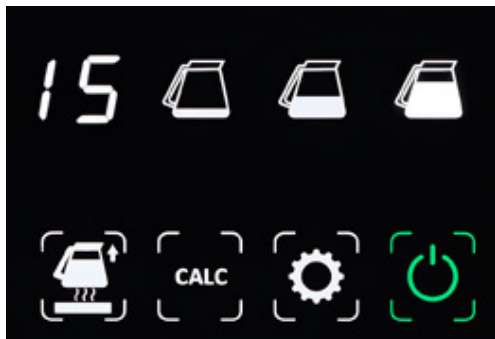

- Robust touch display with LCD panel and LED signals
- 2 x hotplates to keep your brew warm
- 1 full jug = 15 cups of filter coffee
- Easily choose your quantities using the touch display panel
- Jug detector which automatically stops and interrupts the brewing process

XT180-GMC

Melitta XT180 GMC - 1.8L Glass Jug

Lights + Sounds.

LCD touch display panel, LED signals, and sound alerts to help you know when your brew is complete.

Strength to Strength.

Change the flow of water and brew time to affect your coffee strength with the AromaSelector.

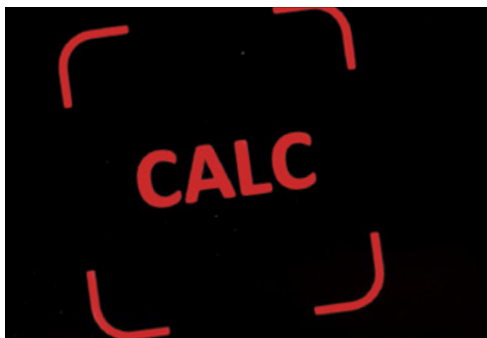

Stop + Go.

The jug detector automatically closes and opens the filter outlet to start, stop, or interrupt the brewing process.

Set + Sip.

Programme to your taste with bloom, heating, and standby mode settings.

No Scale for You.

With the descaling setting (CALC button), the machine tells you when it's ready for a clean.

Dishwasher? Sure.

The filter is super easy to clean: simply wash by hand in warm soapy water or clean in the dishwasher.
