

Palo GrindMinder
Countertop & Grinder Brush

**Palo GrindMinder
Replacement Bristles**
2 Pack

Palo GrindMinder & Replacement Bristles

The Palo GrindMinder is the ultimate barista brush for a clean workspace. It has been designed for both countertop cleaning and grinder burr cleaning. The black, low-profile head is designed for sweeping away coffee grinds and crumbs from countertops, and reaching those hard-to-clean places under espresso machines. The natural coloured bristles on the other end of the GrindMinder are perfect for brushing away coffee grinds from grinder burrs. The long, thin bristles can also be used to brush grinds out of corners and small spaces.

The GrindMinder Replacement Bristles are also compatible with the Palo Grindminder 2.0 Countertop Brush. To replace, simply unscrew the old natural colour bristle head and replace.

Product Details: GrindMinder
